PROJECTS

Memoir: Globally Connected Blogging Platform | ReactJs, JavaScript, MySQL | [Github](#) (Aug 2023)

- Developed a versatile **multi user application** accessible both on computers and mobile phones.
- Users can create, read, publish, update and delete their blogs anytime, encapsulating **CRUD** functionality.
- Provided a feature '**View Author**' that allows you to connect more deeply with other authors.
- App categories the blogs into various **thematic sections**, enabling users to explore content of their interest.
- Used **MySQL Workbench** as a database management system, storing user details and their blog content.
- Developed a **REST API**, for communication between client and database.
- Used a middleware called **Multer** for uploading blog and user images into the web application.

Notedd: Your Online Personal Note Organizer | ReactJs, JavaScript, MongoDB | [Github](#) (Jul 2023)

- Launched an ultimate space for securely storing, organising, and sharing notes all in one place.
- Created a captivating user interface, featuring a **Sign-In** and **Log-In** page, on the frontend.
- Developed a **REST API** in the backend for user registration and authorization
- Added **CRUD** functionality that allows users to create, read, update and delete their notes with ease.
- Used **MongoDB** to smoothly manage user notes and keep them readily accessible whenever needed.
- Applied **Json-Web-Token (J.W.T)** security for safe transfer of user details between browser and server.

Distractions: Your Gateway to Gaming Delight | PHP, HTML, CSS | [Github](#) (Oct 2021 – Feb 2022)

- Developed a gaming website named **Distractions**.
- Created a user **sign-in** and **sign-up** page, with proper connections to the backend database.
- Designed a beautiful **user dashboard** for displaying high scores, recent plays and tracking achievements.
- Connected **phpmyadmin** database for user registration and authorization.
- Hosted this website on a **virtual private server** for a period of **2 months** (Jan '22 - Feb '22) over the internet.

TECHNICAL SKILLS

- **Languages:** C++, Python, JavaScript.
- **Web Development:** ReactJS, Tailwind CSS, Node.js, MySQL.
- **Tools:** Json-Web-Token, GIT, Putty.
- **Co-Curricular:** Php, Advanced Java, MongoDB, Bootstrap.
- **Core Subjects:** Operating System, OOPS, Computer Networks, DBMS.

EDUCATION

Galgotia College of Engineering and Technology | Greater Noida, India (Sep 2020 - 2024)

Bachelor of Technology in Computer Science, secured an aggregate of **7.88 CGPA till VI semester**.

Dr. Virendra Swarup Education Centre | Kanpur, India (2020)

Indian School Certificate Examination, Secured an aggregate of **93.0 percentage in XII**.

ACHIEVEMENTS

- Secured a rank of **565** in [CodeRush](#) coding competition conducted by **Newton School**. (Apr 2023)
- Achieved a **Gold** Certificate in Cloud Computing Foundations from [Wipro FutureSkills](#). (Mar 2023)
- Secured global ranks of **2775** and **2789** in round **G** and **H** of [Google Kickstart](#). (Oct 2022 - Nov 2022)
- Highest rating of **1739** (3 star) so far achieved on [Codechef](#). (Mar 2022)
- Completed over **400+** problems collectively on [Leetcode](#) and [GFG](#).
